RESEARCH INTERESTS

My research interests lie at the intersection of statistics, machine learning, and data mining. Recently, I have also developed interests in large language models and agentic systems.

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST) <i>Ph.D.</i> in Artificial Intelligence (Advisor: Prof. Kijung Shin)	2026.03 – Present
Yonsei University <i>M.S.</i> in Statistics and Data Science (Advisor: Prof. Seyoung Park) Thesis: “ <i>Transfer Learning in High-dimensional Ising Models</i> ”	2024.03 – 2026.02
Yonsei University <i>B.A.</i> in Applied Statistics	2017.03 – 2024.02

WORK EXPERIENCE

Korea Advanced Institute of Science and Technology (KAIST) <i>Visiting Researcher</i> , Data Mining Lab Advised by Prof. Kijung Shin	2025.07 – 2026.02 Seoul, Korea
Yonsei University <i>Teaching Assistant</i> , Department of Applied Statistics	2024.03 – 2025.06 Seoul, Korea
Barun ICT Research Center <i>Statistics Intern</i>	2024.10 – 2025.08 Seoul, Korea

PUBLICATIONS

INVITED TALKS

The 3rd Joint Conference on Statistics and Data Science (JCSDS) <i>Modern Approaches to High-Dimensional Analysis</i> “ <i>Adaptation and Generalization in High-Dimensional Ising Models Using Transfer Learning</i> ”	2025.07.11
--	------------

HONORS AND AWARDS

<i>Excellence Award</i> , Yonsei Big Data Analysis Contest	2026.01
<i>3rd Place</i> , Yonsei University BK Winter Academic Conference	2025.12
<i>1st Place</i> , Yonsei x Upstage LLM Query Hackathon	2025.11
<i>Honors</i> , Yonsei University Academic Excellence Award	2023.08

TEACHING

Teaching Assistant at Yonsei University

- STA1001: Introduction to Statistics Summer 2024, Winter 2024
- STA2105: Statistical Method Spring 2024
- STA3125: Regression Analysis Fall 2024
- STA4125: High-dimensional Data Analysis Spring 2024, Spring 2025

PROJECTS

Sequential Recommendation with FDA 2025.12 – 2026.01

Topic: Sequential Recommendation with Functional Representations
via Graph Structure Learning & Self-Supervised Learning
Yonsei Big Data Analysis Contest 2025

Grammar Correction with Graph Construction 2025.11

Topic: Korean Grammar Correction with Graph-of-Thoughts Prompting
Yonsei x Upstage LLM Query Hackathon 2025

Barun ICT Simulator 2024.10 – 2025.08

Topic: Tableau Dashboard to Simulate the Costs of Malicious Comments
Barun ICT Research Center Project

Legent 2025.03 – 2025.06

Topic: Legal AI Agent with Graph and RAG
YBIGTA Conference 2025-1

2025 AGI Agent Hackathon Organization 2025.02 – 2025.03

Topic: AI Agent Hackathon Planning and Organization
YBIGTA x Upstage AI Joint Hackathon 2025-1

LLMs: You Can't Please Them All (Kaggle) 2025.01 – 2025.02

Topic: Robust LLM-Judges against Adversarial Inputs via Multi-Agent Systems
YBIGTA DS 2025 Winter Project

WWW'25 AgentSociety Challenge: WebSocietySimulator 2025.01 – 2025.02

Topic: Recommendation Track - AI Recommender
YBIGTA DS 2025 Winter Project

PosePal 2024.09 – 2024.12

Topic: Fitness Coach via Pose Estimation and MVTS Classification
YBIGTA Conference 2024-2

InsideOutDJ 2024.07 – 2024.08

Topic: Diary-based Song Recommender
YBIGTA Freshmen Conference 2024-2

Highway Reinforcement Learning Competition 2023.11 – 2023.12

Topic: Reinforcement Learning for Autonomous Driving
Understanding and Using AI Course Project

Real Data Image Classification 2023.11 – 2023.12

Topic: Image Classification with Zlatan Ibrahimovic and Shin Hyunjun
Understanding and Using AI Course Project

Prediction of Horse Race Rankings with Data Modeling <i>Topic: Data Modeling and Horse Race Ranking Prediction</i> <i>Data Integration and Data Privacy Course Project</i>	2023.10 – 2023.12
Quantum Neural Architecture Search with PennyLane <i>Topic: QNN-NAS with PennyLane and Reinforcement Learning</i> <i>QISKIT for Data Science Course Project</i>	2022.05 – 2022.06

EXTRACURRICULAR ACTIVITIES

YBIGTA (Yonsei Big Data Society)
